

## Product Manager

### (High-Power Linear Product Lines)

We are looking for a **Product Manager** to join our team and oversee the High-Power Linear products in our line-up, existing and future. GVA Lighting Product Managers are talented Industrial Design and Mechanical Engineers with strong background in product development and product management, who lead the design of new lighting fixtures and improve existing products.

GVA Lighting creates outstanding lighting systems and signature lighting projects worldwide in cooperation with the best lighting designers and architects in the world. Our engineering, design and manufacturing takes place right here in the Greater Toronto Area and you can be a part of it! Check out some of the amazing lighting projects we completed recently ([gvalighting.com/projects](https://gvalighting.com/projects)).

The Product Manager is responsible for planning, forecasting, production and marketing of products at all stages of the product lifecycle and is accountable for sales revenues, market share, and profit margins. Another big part of the job is leading a team of mechanical designers and fostering cross-functional relationships with other teams in the company (sales and lighting design, process engineering and production, projects and customer support, electronics design, to name a few).

#### What you will be doing:

- Oversee product development of assigned family of products (i.e. High-Power Linear <https://gvalighting.com/str9-series/>);
- Design new products from concept to manufacture, including testing thermal designs and optical systems (i.e. SolidWorks);
- Develop marketing strategy for assigned family of products, based on technical market research and assessment of customer attitudes;
- Provide Sales and Marketing teams with the necessary technical expertise and support;
- Assist Process Engineering to choose and develop more efficient and safe manufacturing processes; Recommend changes to work methods, safety and labor organization;
- Make samples and/or working models (i.e. 3D printing);
- Perform continuous improvement of existing products;
- Work with suppliers to research, quote, and prototype new parts, processes and materials;
- Create new or modify existing product documentation (i.e. spec-sheets, installation guides);
- Represent GVA Lighting interests with suppliers and customers.

This is a multi-disciplined role. Candidates must be tenacious, organized, and passionate designers with a solid product management experience.

#### What skills and experience qualify you for the role:

- Minimum of 8 years of related experience - product design in a manufacturing environment;
- Degree in Mechanical Engineering, Industrial Design, Electronics Design or related field;
- Excellent knowledge of SolidWorks with a minimum of 3 year working experience;

**Different.**

- Ability to read and create 2D and 3D drawings (SolidWorks a must);
- Knowledge and experience with PDM standard or professional (Enterprise);
- Experience leading new product introduction (NPI) and design for manufacturing (DFM);
- Knowledge of electronic and/or LED systems a plus;
- Experience with the following processes is an asset: Aluminum casting and extrusion, polymeric injection molding and extrusion, CNC machining and sheet metal forming.

Please provide a few samples of your work - designs, sketches etc. - through a link or directly in your resume.

During the selection process you might undergo psychometric tests, as well as practical exercises to help us identify those who have the right attitude, skills, know-how and to find a cultural fit with our company's values.

### Why GVA?

- We offer valuable learning opportunities enabling professional growth
- You will receive a competitive salary based on skills and experience
- You will have room to grow your career;
- You may take pride in having participated in landmark projects at home and around the world
- When you work with us you can qualify for professional development, employer sponsored health benefits and retirement savings plan

Send your resume and LinkedIn profile link to [hr@gvalighting.com](mailto:hr@gvalighting.com).

GVA Lighting is proud to be an equal opportunity employer committed to the attraction, selection, advancement and fair treatment of all individuals. In accordance with the Human Rights Code and Accessibility for Ontarians with Disabilities Act a request for accommodation will be accepted as part of the GVA Lighting hiring process.

We thank all the candidates for their interest in GVA lighting, however only selected candidates will be contacted.
