

SMT Operator

We are looking for a **SMT Operator** to join our team in the afternoon shift (4:30pm to 1:30am – some flexibility in start and end time). SMT Operators ensures that all GVA products meet our high-quality standards and specifications. Reporting to the Electronic Assembly Manager, you will frequently communicate feedback and suggestions to create an environment of continuous and focused improvement.

GVA Lighting creates outstanding lighting systems and signature lighting projects worldwide in cooperation with the best lighting designers and architects in the world. Our engineering, design and manufacturing takes place right here in the Greater Toronto Area and you can become a part of it! Check out some of the amazing lighting projects we completed recently.

Function:

The SMT Operator is an integral part of our Production team. This position performs a key role in the assembly of printed circuit boards and LED modules using our leading-edge Surface Mount Technology (SMT) line.

Responsibilities:

- Perform frequent set-up and smooth operation of SMT equipment in a high-mix production environment
- Interpret assembly drawings and schematics against Bill of Materials, Work Orders and Pick & Place Locator / documents
- Conduct quality inspections and create reports of electronic assemblies produced by SMT according to the Company specification and regulatory documents (at least Class 2 assembly according to IPC-A-610)
- Perform “First off” inspections to ensure correct component locations, orientation, LED bin, component value, and any defect that might occur in SMT production
- Assist in building prototype and NPI products
- Ensure timely and accurate updates on the ERP system
- Light lifting when required (e.g. SMT feeders, SMT Components, PCBs, Racks, etc.).
- Maintain accurate PCBs, parts and SMT components inventory
- Maintain a clean work environment; and
- Other duties as assigned to effectively carry out the abovementioned duties and responsibilities

Qualifications & Abilities:

- Prior experience in a similar role; electronics manufacturing companies is preferred
- Post-Secondary Education in Electronics or related relevant experience
- Experience in setting-up and Operating DEK/Samsung Paste Printer, Samsung Pick & Place, Reflow Oven, AOI or similar Surface Mount Technology equipment
- Familiar with SMT Electronics Components and Printed Circuit Boards
- Can work in a fast-paced SMT Machine Operation Environment and able to meet tight production schedule/deadline

Different.

We think independently, never copy.

- Can do SMT operation in a low volume-high mix operation with frequent machine changeover/set-up or loading of reeled components on feeders
- Team-player attitude with great interpersonal communication skills
- Attention to detail

Why GVA?

- Employees receive on the job training for valuable and transferrable skills, and will have continuous learning opportunities in the organization
- When you work with us you qualify for employer sponsored health benefits and retirement savings plan
- You will receive a competitive salary based on skills and experience
- You may take pride in having participated in landmark projects at home and around the world
